*“This programme has made me think more about listening and letting people speak more, not interrupting or feeling the need to ‘fill the gaps’. I will use these valuable skills when meeting with students in my pastoral role and hope this will make me a better version of myself when communicating with young adults and other staff. I will use aspects when leading my team and getting the best from them.”*

*“I can’t rate this Governance training highly enough – best session I have done for a long time. I went away inspired to introduce new ways of working for our LGB and am currently working on them with our chair and Headteacher. Thank you so much for arranging this session.”*

# Billericay Teaching Alliance

**OUR VISION:** *Engaging and Developing people to enhance the life chances of all children*

## Background

Billericay Teaching Alliance are proud to have engaged with Governors, Leadership teams, teachers, administration and support staff from over 580 schools, partnerships, Multi Academy Trusts and other educational establishments nation wide. Areas of engagement include Initial Teacher Training, Professional Development, School to School Support and Research and Development.

We are proud of all colleagues across the educational spectrum that have worked tirelessly with us ensuring we have a first class service accessible to all, enabling us to engage and develop people to enhance the life chances of all children.

## About Us

Our facilitators and trainers are highly experienced middle and senior leaders, Headteachers, Governors, System Leaders and external consultants, who have supported us in the creation and delivery of a suite of Professional Development opportunities, networks and programmes which support all involved in education to provide the best possible experiences for our young people.

We pride ourselves on working with, creating and developing long term strategic relationships with the organisations we work with to understand their needs and provide effective solutions to address and support their School Improvement Agenda.

We are proud to be working with the Harris Chafford Hundred Teaching School Hub to continue to provide our highly effective ECT Appropriate Body Services and to be a delivery partner for the newly designed National Professional Qualifications (NPQs).

We very much look forward to working with you,  
***'Unlocking potential together'.***

*“Made me look at myself. How I am perceived by others and how to ensure this becomes a positive feature. To listen more and allow students, teachers, colleagues to come to their own conclusions and identify their own actions through effective questioning.”*

...The Power of Coaching delegate

*“I have become more self reflective as a Leader, identifying areas for improvement and how to achieve these. This 360 audit has given me the opportunity to see other staff’s perception of me. I now have an action plan for moving forward on my leadership journey and will use leadership strategies to influence my decision making.”*

...Outstanding Leadership In Education delegate

*“This programme has really deepened my thinking about the role of an LSA. I have realised that differentiation is not always about ability, and not all children learn in the same way, but all should be stretched.”*
